

GAIA STRATEGIC EXECUTIVE BRIEFING

Generated: 2026-04-28 08:37

STRATEGIC VERDICT:

Based on multi-spectral satellite analysis and the current neural consensus, GAIA recommends immediate appraisal drilling in the OML 130 extension block. The estimated internal rate of return exceeds the 20% threshold at current Brent pricing.

KEY ASSET METRICS:

- OML 130 TARGET: Deepwater Reservoir Extension
- ESTIMATED UPSIDE: 15% Volumetric Increase
- GEOSPATIAL CONFIDENCE: High (Spectral Match)
- ECONOMIC FEASIBILITY: IRR > 22%
- PRIMARY RISK: Regulatory Approval Delay
